

CENTERLINE
Building Services W.L.L

Centerline Building Services W.L.L. is a registered Company in Qatar. The business has been operating within the country since March 2013. And jointly owned by both Local and Western nationals and is managed and operated by experienced professionals.

Centerline's business partner, Arabian Construction Engineering Company (ACEC), a pioneering group supporting various industries through its network of subsidiaries, partnerships, and strategic partnerships.

Our broad and deep experience of the local market – combined with our international partnerships and specialized management teams – are integrated into every opportunity we take on across some of Qatar's key industries.

Centerline compliments ACEC, in planning, construction, maintenance, applications and on-site services.
